

# Veberod Gem Gallery Class Notes

## Primitive Casting

Learn to cast in water, cuttlefish and sand. All these forms of casting are inexpensive, easy to learn and result in great shapes and textures! Casting done outdoors, weather permitting. (B/I)

### Supplies Required:

Silver Scrap or casting grain

Cuttlefish skeleton

small toys, buttons, items to model for casting

### Tools Used:

Clay or wax carving tools/dental tools

x-acto knife

fine point sharpie

jeweler's saw, blades

dust mask

### A note on cost of supplies -

We prefer not to offer kits for our classes. We try to encourage students to pick equipment and supplies (stones, beads etc.) based on their individual creativity. Often there are several options available and you may have some items already. If you are new to jewelry making, you are welcome to use the shop's tools so you can discover how enjoyable it can be! New students will share the shop tools between them.

Note- this list is designed to help you determine what to bring from home. Not everything is required, and we STRONGLY recommend not buying anything before class if you don't already have it. Many times there are factors that will determine your best choice and we will discuss all this at class. Bring what you have, and don't stress about what you don't.

Please mark tools from home so they are identifiable as your own. If you have any questions regarding the cost of tools, supplies or anything else about the class, please contact us.
