

# Veberod Gem Gallery Class Notes

## Setting Premade Bezels

Make a quick gemstone pendant by soldering a premade bezel to copper backing and setting the gemstone. We use very low temperature solder to make it super-easy! (B)

### Supplies Required:

Fine Silver Bezel Cups  
Cab(s) to match size of cups  
Sterling Disc or Copper Shape  
16ga Wire or Ear wires: 480316 or 480824  
Sta-Brite Solder: 354452

Approx. Supplies Cost: \$ 50-70

### Additional Tools:

Burnisher: 318052  
Bezel Rocker: 353142

| Flux: 354442                          |  |

Approximate Cost for Basic Tools: \$215

**A note on cost of supplies** - We prefer not offer kits for our classes. We try to encourage students to pick equipment and supplies (stones, beads etc.) based on their individual creativity. Often there are several options available and you may have some items already. If this is your first class, you are welcome to use the shop's tools so you can discover how enjoyable it can be! New students will need to share the shop tools between them. **It is important to remember to always bring your tools from home!** Also, please mark them so that they are identifiable as your own. If you have any questions regarding the cost of tools, supplies or anything else about the class, please contact us.
