

My husband and I have been coming to Veberod's for quite a few years and are so glad that they are in our community. We have purchased some beautiful pieces of jewelry there and have had them design some pieces for us. It is very enjoyable to go there and see the unique items they have in their cases and a wonderful array of gem stones. The customer service is great. Their repair department does a very good job, we have brought more than a few older pieces in for maintenance and cleaning as well. We have recommended Veberod's to many of our friends.
