

# Veberod Gem Gallery

## Rings I - Stackable Soldered Rings

This set of rings is always a popular gift, so prepare to make more!! As an extra bonus, it is also a great way to practice your soldering. We will be making sets of simple rings with stones set on some of them. Rings will be able to be worn as a set or individually.

Prerequisite: Silversmithing II

Please plan to provide all your own consumables. You will be able to purchase anything you need at Veberod Gem Gallery during class. Being able to see clearly is essential to your success, so bring magnification you are accustomed to using (cheaters, OptiVisor, Telesight).

### Supplies Required

  - File

### Tools (continued)

- Ring Mandrel
- Non-marring hammer
- \* Burnisher
- \* Bezel Rocker
- Magnification
- 3M Polishing Papers

### Notes on tools/supplies

This list is designed to help you determine what to bring from home. Please DO NOT buy anything before class if you don't already have it. Many times there are factors that will determine your best choice and we will discuss all this at class. Bring what you have, and don't stress about what you don't.

We prefer not to offer kits for our classes. We try to encourage students to pick equipment and supplies (stones, beads etc.) based on their individual creativity. Often there are several options available and you may have some items already.

Please **mark** tools from home so they are identifiable as your own. If you have any questions regarding the cost of tools, supplies or anything else about the class, please contact us at 952.595.8338.
